

**WHEELS OF TIME** The Real Thing in N-Scale unTimely News No. 2  
P.O. Box 846, Mountain View, CA 94042-0846; 866.737.9654 fax [www.wheelsotime.com](http://www.wheelsotime.com)

**Welcome to the World of Wheels of Time [www.wheelotime.com](http://www.wheelotime.com)**

*Our newsletter is a work in progress. I hope you find it fun and informational. Tell us what you think.*

### ***Coming Up –***

**Send in your photos** of Wheels of Time replicas on your layout or diorama. Whether it's customized, weathered, kit-bashed, super-detailed or right out of the box – say behind your favorite locomotive, a place on our web site for customers photos is in the works. Send in your gif, jpg, or png with 72 dpi and 600 pixel wide.

**Houston are you there?** We *like* to produce a special Houston bus for the N Scale Collector's Convention. However, still looking for the elusive Houston Transit logos. Contact me if you have information on these logos.

***About 24 days to go to March 15th!! Is that tax day? No...***

**Reservations for our Next batch of arched roof baggage cars and coaches are due on March 15th through your favorite hobby store [www.wheelsotime.com/findastore.php](http://www.wheelsotime.com/findastore.php).** Sometimes, we don't get the word out in time, and so replying you with sad emails of missed-the-reservation. I don't want to do that. So don't miss it. Check out the details. <http://www.wheelsotime.com/> *Included in this batch is the much asked for M-O-W series of cars, new revenue ones, and a few popular reprints. Catch them before they leave the station.*

## ***Your eyes make it possible ... Really? !!***

At the risk of not giving proper due for those who have helped Wheels of Time in developing our products, I like to note a few individuals. Chuck S. of CO for catching our mistake in our pre-production samples of our Denver Tramways transit coaches and giving us the correct color match from a restored DTC coach. The DuPont paint specs he supplied me was extremely helpful for me to match Pantone paint specs with my local auto body paint supplier.

Kudos to Bill R. for Toronto Transit Commission photographic support, destination signage, and route history. I especially appreciate the photo of the back of the TTC bus – which is seldom photograph – so we can have the top roof stripe curve around the back just right like the real thing. Richard S. and Ronald M. for their help in Greyhound C49s including getting the “ICC” number correct. Yes it’s readable but you may need a magnifying glass to see it on our buses. I am picky about details and won’t just placing any sort of number on our replicas. It has to be authentically detailed.

Jim C. for making our upcoming Southern Pacific Maintenance-of-Way cars dead-on accurate. I think you will appreciate these SP cars as well as our other batches of arched roofed railroad baggage cars and coaches. Due to the dealers in late spring. More precise date when my vendor in Hong Kong comes back from their New Year break. **Kung Hey Fat Choy!**

## ***And some comments from our clients ....***

“Just received my order. Thank you so much!!! The detail is amazing, as I would expect from you guys. Keep up the great works!” Randy B.

“Wonderful little items. Congratulations.” Francois, France

“I am avid collector of Wheels of Time rolling stock. I have every Harriman-roofed car you issued, except for the Algoma Central coach... Keep up the fine work. I look forward surprises from Wheels of Time.” Richard S.

In the next untimely newsletter we will make some future surprises.

Until then,

*All the best,*

*Matthew Young*
